

SECATEUR - BIGHORN ANVIL

SKU: BHAS3125-NV

This BHAS3125-NV is a sturdy anvil secateur that utilizes the principle of a drawing cut against a fixed base plate (the anvil). The anvil cutting action provides a better transmission of the cutting power, making it an ideal choice for harder woods such as citrus and almond trees.

This sturdy anvil secateur utilizes the principle of a drawing cut against a fixed base plate (the anvil), which has been proven for over 80 years. The anvil cutting action provides a better transmission of the cutting power, making it an ideal choice for harder woods such as citrus and almond trees.
