

# HEDGE SHEAR KR-1000 - ARS PRECISION

The ARKR1000 shear is perfect for topiary and accurate trimming with razor sharp, hard-chrome plated, high carbon steel blades for rust and sap resistance and enlarged shock absorber for reduced strain on hands.

The ARKR1000 Hedge shear is perfect for Topiary and Accurate Trimming with:

- Razor sharp, hard-chrome plated, high Carbon Steel blades for rust and sap resistance.
- Wide blade for greater strength at the blade tip during use.
- Quick blade tension adjustment and secure pivot bolt locking device.
- Ultra-light, durable ergonomically designed alloy handles.
- The blades can be re-sharpened and are replaceable.
- Enlarged shock absorber for reduced strain on hands for comfortable handling with minimum fatigue.
- Quality Japanese manufacture.
- Recommended Maximum Cut Diameter 10mm

Replacement blades and other spare parts available.

Code	Overall Length	Blade Length	Weight
ARKR1000	653mm	180mm	780g
